BETTA & CLASSIC

SLOT RACING ACCESSORIES

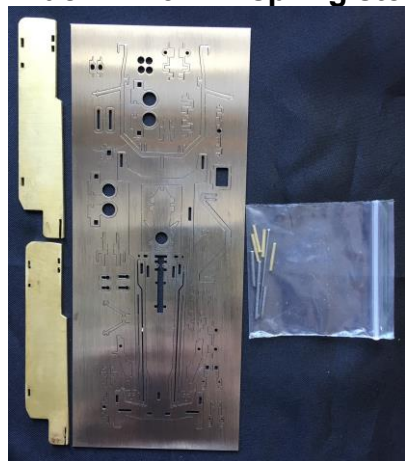

The first and generally the most important part of a slot car is the chassis. Today many variations are available from the production chassis such as PARMA and JK type, right through to the EDM / Laser cut chassis produced by BETTA, Mossetti, Mack etc. With many variations available our aim being to make slot racing at this level easier and at a realistic price.

Chassis Build Variations Available

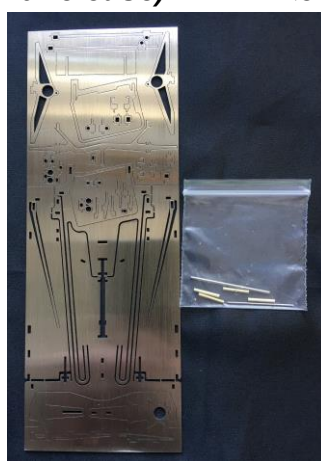

Choice 1. Chassis Kit

All chassis kits consist of a superbly designed laser cut chassis blank and comes complete with fully documented assembly instructions enabling easy and accurate assembly.

BETTA RC31 Gp12 (Clubmans), 1/32nd spring steel chassis kit.... £36.00 ea
'Mack' - 1/32 Pro-Am sports spring steel chassis kit..... £40.00 ea (Out of stock)
'Mack' - 1/32 F2 spring steel chassis kit (2020 release)..... £47.00 ea (Out of stock)

Mack F2 Kit (2020 Release)

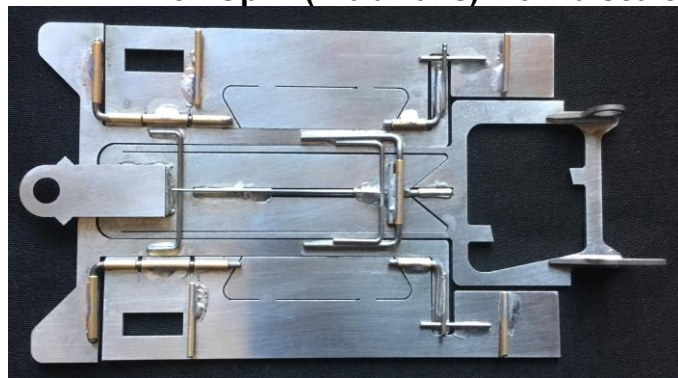

Mack Pro-Am sports kit

Choice 2. Assembled Chassis

Our assembled chassis are professionally built by some of the countries top slot racers, all that is left to do is fit the running gear and an appropriate body shell.

BETTA RC31 Gp12 (Clubmans) 1/32nd scale chassis..... £60.00 ea

Mack – 1/24 th Open Gp12 chassis.....	£120.00 ea (Out of Stock)

Choice 3. Ready to run (R.T.R.)

Or if you prefer we will assemble your chassis, fit all the running gear of your choice and add the appropriate balance weights required. The only thing left to do is fit a "BETTA" shell of your choice. Please note that prices depend largely on the equipment used i.e. Motor set-up, type of bearings etc. So it would be advisable to ring or write for an exact quote for R.T.R. chassis.

Specially developed motors for Hard body racing.

2KK and Cahoza have developed these motors over the past 2 years to provide a high quality and durable motor at affordable cost. The motor is designed to have efficient cooling, minimal speed and power variation to allow competitive competition. Motors are packaged in sealed tubes to prevent tampering.

Cahoza short can motor 12V-21,500 rpm. Armature is axially aligned to the magnetic field for the best performance.

Shaft dia is 2mm. £13.80 ea

Cahoza short can motor 12V-25,000 rpm. Armature is axially aligned to the magnetic field for the best performance.

Shaft dia is 2mm. £13.80 ea

Cahoza long can motor 12V-25,000 rpm. This motor is fitted with better commutator and longer brushes for higher endurance. Armature is axially aligned to the magnetic field for improved performance. The armature is engraved with RPM.

Shaft dia is 2mm. £17.50 ea

BETTA PRO-REARS. Ground to perfection on specially developed machinery. Using our own special light weight hubs these wheels are ready to use and are available in standard dia sizes of 0.635", 0.660", 0.690" & 0.750". And in widths of 1/2", 9/16", 5/8" & 3/4". And are made to fit a 3/32" or a 1/8" dia. axle.

We believe at BETTA that rear tires contribute immensely to the performance of any slot car so we have gone to great lengths in producing a machine that will guarantee roundness and also the correct tire contour required for today's high performance slot cars.

BETTA PRO-REARS can be produced using any of the type of tyre blanks listed below. Using S&K hubs or similar. Please state TYPE when ordering. 1/2" – 20mm WIDE from £15.50 pr
